

Auxiliary Warning Light Kit NOW Available

Parts Update #17-09

SoundOff Lighting Introduces “Auxiliary Warning Light Kit”

SoundOff Signal has just received NYSDOT authorization for their “Auxiliary Warning Light Kit.” This newly allowed item is the next step in increasing the safety of children while entering or exiting the stopped school bus!

This “Auxiliary” light system works to enhance the standard 8 lamp warning system by placing 2 Red LED lights above the front and rear bumpers, where motorists can more easily be alerted to a stopped school bus (please see above).

These kits, specifically designed for the school bus industry, are also available in Amber, White and Red/White split and with an added flasher can be used for other units in your fleet such as service trucks.
