

Parts Notice

From your friends at New York Bus Sales

Stretch your money with our “Take Off” Parts Specials

Occasionally we have new buses arrive for customers who chose to have different options installed than the units were originally ordered with and NYBS will remove the original option and install the new option. When this is done we end up with a limited supply of assorted parts whose only use has been in transport from the manufacturing plant to our facilities in New York State. We refer to these parts as “Take Off” parts and we re-sell these parts at a discounted price to anyone who can use them, thus creating a win-win situation, customers save money, we move parts. Below is our current list of “TAKE OFF” Parts, available on a first come first serve basis, with limited quantities available. If you see any parts of interest please contact any of our parts sales or customer service reps for assistance.
