

ANGELTRAX CAMERA INFO

16-03

ANGELTRAX “QUEST” IS BEING REPLACED WITH THE NEW “QUEST EDGE”

Security Comes Standard

The Hybrid Quest Edge features a dedicated bay for its standard 500GB solid-state drive, allowing convenient access and impeccable performance.

The DVR’s SSD and slide rail components are protected by a key-locking front door and features a shutdown delay up to 999 minutes, thus ensuring footage is recorded even after the vehicle is shut off and exited.

Quality that Grows with Your Business

The Hybrid Quest Edge™ comes standard with eight channels of crystal clear audio and video. AngelTrax mobile DVR systems record and store the highest quality video and audio possible in the transportation industry, due to independent, noise-gated audio channels and high resolution, high frame rate video capture.

Built Tough

A durable metal casing protects the unit from extreme mobile conditions. Constructed with military grade materials, AngelTrax DVRs will outlast and outperform years longer than other systems.
