NEW YORK BUS SALES EXPANDS ITS COMMITMENT TO WESTERN NEW YORK

(Saratoga Springs, NY 7-12-2021) Sean Finnerty, President of New York Bus Sales, LLC today revealed a multi-million-dollar commitment by the company to provide unparalleled service in Western New York with the acquisition of a seven acre plot of land in Batavia that will house a new 20,000 square foot service, parts, and sales facility slated to open in July 2022.

“With a purpose-built facility focused on buses, we can plan for both current needs and future expansion,” said Finnerty, noting that the nine service bays in the plan will include provisions for electric-powered (EV) school buses as well as buses using traditional fossil fuel propulsion. “Our location is just minutes off the New York State Thruway and about a thirty minute drive from Buffalo or Rochester,” he continued.

Parking for 100 school buses, two dedicated wash bays, and a 3,000 square foot parts room will enable New York Bus Sales to meet the needs of bus operators in Western New York in the most efficient manner possible.

The project was announced at the annual New York Association for Pupil Transportation (NYAPT) Conference and Trade Show, allowing some 200 transportation professionals statewide to view the plans.
