

# Sales Update

FROM YOUR FRIENDS AT  
NEW YORK BUS SALES!

**POWERED by ROUSH PROPANE**

## O.T.I.S. Alert Light

One Touch Integrated Start (O.T.I.S) is the feature on the Roush propane where the key activates a start sequence to purge propane gas from the lines and bring in liquid.

Blue Bird as an added safety feature has installed a flashing light in the engine compartment as a warning that O.T.I.S. has been initiated and that the engine will start to crank. There is a warning decal (Figure #1) above the light which is on the left side of the radiator support (Figure #2 &3).
