

Tech Tip

From your friends at New York Bus Sales

PRODUCT AFFECTED – A3, D3 and BBCV using the Actia Dash Cluster (Pictured below)

- Complaint -** We've tried to check our fuel economy using the dash but all that shows is "-mpg Avg"
- Cause** The dash was never set to "ZERO"
- Correction** Following the instructions below set the message display for the fuel economy to "ZERO"

On the dash in the lower right corner there are 2 buttons (Figure #1)

Figure #1

Once you have located those buttons and the unit is parked, in neutral with the parking brake set, press the lower button until “Quad 1” of the LCD display of the dash is highlighted (Figure #2)

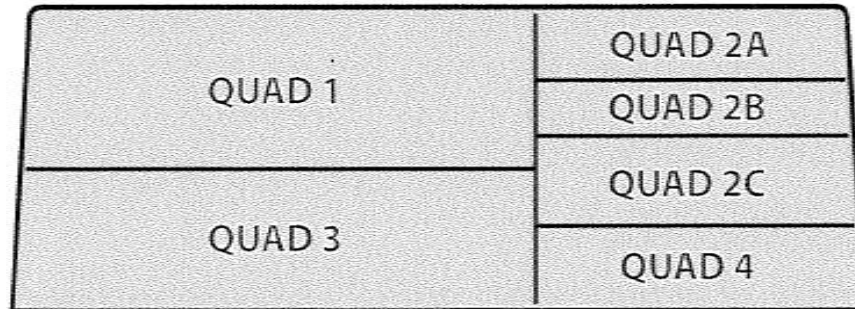

Figure #2

Using the upper button, scroll thru until the “-mpg Ave” appears (Figure #3)

Figure #3

While still highlighted, press and hold the upper button until “0.0mpg Avg” is displayed in the Quad (Figure #4)

Figure #4

**We are proud of our fuel economy especially
using Cummins and the SCR system!**

Check and track it – You’ll be happy with the results!
