

Propane & Gasoline Grounding Straps

Parts/Service Update #24-0224

Fuel Line Grounding Straps Required

Recently we have been asked if the “Grounding Straps” (FIGURE #1) that are on the fuel metal lines of the gasoline & propane units (FIGURE #2 & #3) are required as some have been found corroded and are no longer connected.

We have contacted Blue Bird engineering to confirm these are required and there should be 2 for every metal line. The chart in FIGURE #4 lists the proper number required depending on wheelbase & suspension.

Part #10046906
