

SERVICE UPDATE

FROM

NEW YORK BUS SALES, LLC

BB Air Brake Vehicles

Complaint: *The low air buzzer only operates for a short time!*

Cause: *The newest design only allows 15 seconds for the buzzer to operate, the previous design was for 30 seconds.*

Correction: *The MOST IMPORTANT point to this fact is that the buzzer is indeed working properly as long as it remains on constantly while the unit is running. If for any reason it fails to operate while the unit is running the there is indeed a failure that needs to be addressed-*
